

# Escape the Slick: Musical Chairs Activity

COMFORT

ACCESSIBILITY

WHAT IS PUBLIC?

## How to play?

Listen to the audio playing around you. Every time the track changes, move to a different seat in the room.

Write down what you see, feel and hear in each chair...

## Consider...

What phrases on the wall catch your eye?

What conversations are happening around you?

How does this chair feel compared to the last?

How does your body respond to this public space?

## Leave a Legacy...

From some of the key words you've written down, can you contribute ideas to the questions on the notice board?

What does  
comfort  
look like?

Use these post-it squares to note down the ideas you're observing around you...
