

Whitechapel Gallery Tech Package

An Overview

Founded in 1901 with a mission to ‘bring great art to the people of East London,’ the Whitechapel Gallery’s beautiful historic building houses nine galleries, a restaurant, an auditorium and two studio spaces dedicated to education and research.

We are pleased to open up these versatile spaces to those looking for a unique setting for their away day, evening reception or hybrid event. By choosing the Whitechapel Gallery for your event you are directly supporting the internationally-recognised work of the Gallery and helping us to enrich the lives of more people through access to contemporary art.

Our tech packages are designed to support your event, meeting or conference in an increasingly hybrid world. Whether you need to include those joining your meeting online, platform a live talk on our stage, or even liven up your event with a DJ— one of our packages will provide the solution. Each of our tech packages can be utilised in specified spaces.

Please see our Whitechapel Gallery Venue Hire Brochure for more details about each listed space including features and capacities.
